The Theory Of Metabolic Therapy

Conventional orthopedic theory believes pain arises only by anatomical structural changes.
Every anatomical structural change results in new disruptions to metabolic processes.
This requires additional diagnostic and therapeutic approaches for more complete pain response.

The App

Pain management through the disruptions to

BCR-Therapie

- A metabolic therapy system
- Focuses on restoring cellular metabolism
- Uses electrical stimulation and heat (phototherapy)
- And Chemical (Phytotherapy) system to be used
- Automatically adjusts intensity
- A system that is safe and convenient to use
- The system is adapted to the patient's therapy

- Arthritis, Knees
- Post-Arthritis Shoulder
- Neuro-Degeneration
- Stroke Rehabilitation
- Injury Healing
- Wound Healing
- Whole Body Regeneration

The Theory Of Metabolic Therapy

Metabolic therapy is a non-invasive, painless, and safe method of treating various types of pain and inflammation. It works by stimulating the body's natural healing process, which leads to the production of new cells and the repair of damaged tissue.

The Approach

- Patient Evaluation
- Physio-Metabolic
- Metabolic Stimulation

- Musculo-Skeletal Pain
- Low Back Pain
- Cervical Syndrome
- Arthritis, Knees
- Post-Arthritis Shoulder
- Neuro-Degeneration
- Stroke Rehabilitation
- Injury Healing
- Wound Healing
- Whole Body Regeneration

By Metabolic Therapy

The Theory Of Metabolic Therapy

Conventional orthopedic theory defines pain symptoms only by anatomical structural changes.
Every anatomical structural change inevitably also causes disruptions to metabolic processes.
This requires additional diagnostic and therapeutic approaches for more complete pain management.

The Approach

Pain symptoms are caused by the disruptions to cellular metabolism. Restoring cellular metabolism relieves pain and heals the root cause.

- Hyper Metabolism
- Hypo Metabolism
- Normal Metabolism

- Musculo-Skeletal Pain
- Low Back Pain
- Cervical Spondylosis
- Arthritis Knees
- Peri-Arthritis Shoulder
- Neuro-Rehabilitation
- Stroke Rehabilitation
- Injury Healing
- Wound Healing
- Whole Body Regeneration
